In Section 4.40, amend the first sentence of footnote 59 to read as follows (with no change to the remainder):

59. In Residence C-1, C-1A, 2, 2A, 2B, 3, 3A, and 3B Districts, certain Retail and Consumer Service Establishments identified in the Table of Use Regulations may be allowed by special permit from the Board of Zoning Appeal, subject to the criteria set forth in Sections 10.43 and 10.43.1 of this Zoning Ordinance, if all of the following conditions are met:
-

Amend Section 4.53 to read as follows:

4.53*Approach.* This Section 4.50 establishes special use regulations for institutional activities in the Residence C-1 zoning districts. These regulations encompass the full range of institutional uses. Each use is regulated based on its expected physical impacts on nearby residences, on the existing or recent use of the lot or structure proposed for such use, and on the location of the lot either within or outside of an area in which there has already been extensive institutional development.

Amend Section 4.54 to read as follows:

4.54*Institutional Overlay District.* The designation Institutional Overlay District is hereby established on the Zoning Map as provided for in Subsection 3.12. An Institutional Overlay District delimits an area where there has been extensive contiguous development of institutional use types subject to regulation under this Section 4.50. Institutional Overlay Districts are defined in order to identify areas where prior development patterns create a precedent for more flexible institutional use regulation than in areas where non institutional uses predominate. The conditions regarding development of new or expanded institutional uses under Subsections 4.55 and 4.56 are determined in part by whether a lot is located inside or outside an Institutional Overlay District. The boundaries of these districts are drawn based on several physical factors; consequently, for purposes of definitional clarity, they encompass areas both inside and outside zoning districts subject to use regulation under this Section 4.50. Regardless of the location of an Institutional Overlay District boundary, the special institutional use regulations of this Section 4.50 shall only apply within the Residence C-1 districts. The following Institutional Overlay Districts are hereby established on the Zoning Map.

Amend Section 4.55 to read as follows:

4.55*Existing Lot Status.* The institutional use of land or structures for each category of institutional activity in a Residence C-1 district shall be governed by the Table of Institutional Use Regulations in Subsection 4.56. The institutional use regulation in the table shall be the same in the aforementioned zoning district, but shall differ according to: (1) the applicable use category, (2) the location of the lot in relation to the Institutional Overlay Districts, and (3) the status of the lot in relation to its existing or recent use. If two or more of the lot status types listed below would pertain to the proposed development of an institutional use, then the more restrictive designation among the types of lot status for the use would apply. The column heading in Subsection 4.56 refers to the types of lot status listed in Subsection 4.55.1 and applies to institutional development whether by conversion of an existing structure or lot or by new construction or new use of a lot.

Amendments to Article 5.000.

Amend Section 5.11 to read as follows:

5.11No building or structure shall be built nor shall any existing building or structure be enlarged which does not conform to the regulations as to maximum ratio of floor area and lot areas, minimum dimensions of front, side, and rear yards and maximum height of structures, in the several districts as set forth in Article 5.000, Section 5.30 except as hereinafter provided and except in the Cambridge Center MXD District, which shall be governed by the requirements of Section 14.30.

Amend Section 5.13 to read as follows:

5.13In the case of multiple buildings on a lot that do not contain Residences as listed in Section 4.31 a-j., the minimum distance between such buildings shall not be less than the sum of the heights of the buildings divided by six or ten feet, whichever is greater. In determining compliance with this section, portions of buildings exempted by Section 5.23 shall not be counted in computing building height.

Delete Section 5.14 as follows:

5.14[Deleted]

Amend Section 5.15 to read as follows:

5.15No lot or development parcel shall be changed in size, shape, or ownership so that the dimensional requirements or off-street parking and loading requirements prescribed in this Ordinance are no longer satisfied. This paragraph shall not apply where a portion of the lot or development parcel is acquired for a public purpose.

Amend Section 5.21.1 to read as follows:

5.21.1There shall be no required minimum lot area or width except as set forth below.

Amend Section 5.21.2 to read as follows:

5.21.2 No building shall be erected on a lot which does not have at least twenty (20) feet of frontage on a street. This paragraph does not apply to subdivided lots within a townhouse development that have a combined lot frontage of at least twenty (20) feet. This requirement shall not be applicable in the Cambridge Center MXD District.

In Section 5.23, amend the first sentence to read as follows, with no change to following paragraphs (a) through (g):

5.23 *Building Height and Stories Above Grade.*

5.23.1 *Height Exceptions.* The provisions of this Ordinance governing the height of buildings and structures in all districts shall generally not apply to the following:

Amend Section 5.23.1 to read as follows:

5.23.1.1 Building elements enumerated in (a) and (g) above shall be limited in height where they are placed on a building located in a non-residential district, which district abuts a Residence C-1, C-1A, C-2, C-2A, C-2B district. In these instances, the following height limitations shall apply to those building elements:

Create a new Section 5.23.3 to read as follows:

5.23.3 *Application of Height Limits to Residential and Non-residential Uses.* This Section explains how the height limits in the Table of District Dimensional Regulations in Section 5.30 apply.

- (a) Buildings or portions of buildings used as Residences, listed in Section 4.31 a-j of this Zoning Ordinance, are generally limited by the maximum number of Stories Above Grade and by the maximum building height above grade in feet, which is intended to enable the allowed number of Stories Above Grade while limiting excessive story height. Where there is no explicit limit on Stories Above Grade, including but not limited to special districts, overlay districts, or PUD districts, any number of Stories Above Grade shall be permitted within the applicable height limit.
 - (b) Buildings or portions of buildings used for any uses other than those listed in Section 4.31 a-j of this Zoning Ordinance shall be considered non-residential and subject to the non-residential height limitations of the zoning district.
 - (c) In a mixed-use building containing both residential (as described in Paragraph (a) above) and non-residential (as described in Paragraph (b) above) uses, the limit on Stories Above Grade shall apply to the entire building. Portion(s) of the building devoted to non-residential uses shall not be located above the non-residential height limit. Portion(s) of the building devoted to residential uses may exceed the non-residential height limit but shall not exceed the residential height limit.
-

Amend Section 5.24.1, Paragraph (f) to read as follows:

- (f) Projecting eaves, chimneys, bay windows, balconies, open fire escapes and like projections which do not project more than three and one-half (3½') feet and which are part of a building not more than thirty-five (35') feet in height or more than thirty-five (35') feet in height if portions of the building above that height contain residential uses listed in Section 4.31 a-i.;
-

Create a new Section 5.25.4 to read as follows:

5.25.4 *Application of FAR Limits to Residential and Non-residential Uses.* This Section explains how FAR limits in the Table of District Dimensional Regulations in Section 5.30 apply.

- (a) GFA in buildings or portions of buildings used as Residences, listed in Section 4.31 a-j of this Zoning Ordinance, shall not be subject to FAR limitations except where explicitly set forth in the standards for a particular district or overlay district, including but not limited to special districts or PUD districts. GFA in buildings or portions of buildings used as Residences shall be subject to other requirements as set forth in this Zoning Ordinance, including but not limited to Inclusionary Housing Requirements in Section 11.203.
 - (b) Buildings or portions of buildings used for any uses other than those listed in Section 4.31 a-j of this Zoning Ordinance shall be considered non-residential and subject to the non-residential FAR limitations of the zoning district.
 - (c) On a mixed-use lot containing both residential uses not subject to FAR limitations (as described in Paragraph (a) above) and non-residential uses subject to FAR limitations (as described in Paragraph (b) above), the district FAR limitation shall only apply to the GFA occupied by non-residential uses unless otherwise stated in the development controls for that district. In such cases, the GFA occupied by non-residential uses shall be divided by the total area of the lot to determine compliance with non-residential FAR limitations.
-

Delete Section 5.26 as follows:

Amend Section 5.27 (to be renumbered 5.25.7) to read as follows:

5.25.5 *Calculation for lot in two or more zoning districts.*

To the extent that FAR or GFA limitations are applicable to a particular use, the maximum gross floor area permitted for that use on a lot located in two or more zoning districts shall be the sum of the total gross floor area permitted for that use in each portion of the lot, typically determined by multiplying the lot area in each district by the maximum allowed FAR for that use in that district and adding the results for each portion of the lot.

Maximum Gross Floor Area = (Lot area in district 1 x district 1 FAR applicable to that use) +
(Lot area in district 2 x district 2 FAR applicable to that use)

Delete Section 5.28.1 as follows:

5.28.1[Deleted]

Amend Section 5.28.2 as follows (with the intent of facilitating as-of-right conversions to residential use if they conform to existing conditions or underlying zoning standards):

5.28.2 *Conversion of Non Residential Structures to Residential Use.*

Where it is proposed to convert an existing principal use structure, designed and built for non residential use, to residential use (excluding Transient Accommodations listed in Section 4.31.1 and Trailer Park or Mobile Home Park listed in Section 4.31 (j)), the dimensional standards generally applicable in the district as set forth in the Tables of Dimensional Requirements in Section 5.30 and other applicable regulations in this Ordinance, including permitted uses, Section 4.30 - Table of Use Regulations, shall apply except where modifications are permitted, either as-of-right or after issuance of a

special permit by the Planning Board, as set forth below. The provisions in this Section 5.28.2 shall apply in all zoning districts with the exception of districts with an Open Space designation.

Intent of this Section:

- (a) To allow the economic reuse of buildings that may be substantially out of compliance with the dimensional requirements of the zoning district within which they are located, especially as they are converted to residential use.
- (b) To encourage the preservation of buildings of historic or cultural significance by providing opportunities for reuse of the structures.
- (c) To establish a framework of development standards and criteria within which existing non-residential buildings that are out of scale and character with surrounding residential uses can be converted to housing of an appropriate style and density while limiting potential negative impacts on neighbors.

5.28.20 *Allowed Uses.*

The Planning Board may by special permit authorize uses not otherwise allowed in the base zoning district, subject to the following conditions and limitations:

- (a) The permitted uses shall be limited to the following:
 - (1) All residential uses listed in Section 4.31 (a-h), but specifically excluding Transient Accommodations listed in Section 4.31.1 and Trailer Park or Mobile Home Park listed in Section 4.31 (j).
 - (2) The following institutional uses: Religious uses (4.33.a); Public or non-profit educational uses (4.33.b.1); Private preschool, day care, kindergarten (4.33.b.2); Local government or other government facility (4.33.f, 4.33.g); Private museum, library, non-commercial gallery (4.33.h.2).
 - (3) The following office uses: Office of an accountant, attorney, or other non-medical professional (4.34.b); Real estate, insurance or other agency office (4.34.c); General office use (4.34.d).
 - (4) Any uses allowed as accessory uses to the permitted principal uses.
- (b) All permitted non-residential uses shall be limited to the ground floor or basement of the building. The Planning Board may permit non-residential uses to occupy other floors of the building only after determining that the location and design of such spaces, including access and egress, will not impact the privacy or security of residential occupants. However, the total floor area occupied by non-residential uses shall not exceed the floor area of the ground floor and basement.
- (c) The Planning Board shall determine that any proposed non-residential uses are generally compatible with residential uses in the area, including the dwelling units located within the same building, and will not cause harm or nuisance to surrounding uses.
- (d) The Planning Board shall determine that by permitting non-residential uses, there will be a compensating reduction in the number of dwelling units that would otherwise be permitted, and that the proposed non-residential uses will balance the potential adverse impacts of additional residential units, such as demand for nighttime parking.

5.28.21 *GFA and FAR.*

Permitted residential uses shall not be limited by GFA or FAR. Permitted non-residential uses shall be subject to the FAR or GFA limitations applicable to non-residential uses in the zoning district.

5.28.22 *Dwelling Units.*

There shall be no limit on the number of dwelling units permitted.

5.28.23 *Yard Requirements.*

The required yards shall be those of the structure existing at the time of the conversion to residential use. However, any construction occurring outside the limits of the existing structure shall be subject to the yard requirements of the district in which the structure is located.

5.28.24 *Maximum Stories Above Grade and Building Height.*

- (a) The maximum Stories Above Grade and maximum building height, respectively, shall be those permitted for residential uses in the district in which the structure is located, or the pre-existing conditions of the non-residential building, whichever are greater.
- (b) Any construction that occurs outside the existing limits of the structure, other than construction exempt from the height limit as set forth in Section 5.23, shall be subject to the applicable maximum Stories Above Grade and building height limit of the district in which the structure is located.
- (c) In granting a special permit, the Planning Board may approve the construction of additional Stories Above Grade beyond those permitted in Paragraph (a) if they are contained entirely within the existing structure and the Planning Board finds that the additional Stories provide space suitable for dwellings, in addition to meeting other applicable special permit criteria.

5.28.25 *Open Space Requirements.*

The open space requirement shall be that required in the district in which the structure is located, except as modified herein.

The dimensional and locational limitations for Private open space set forth in Section 5.22 shall not apply; any combination of at-grade private open space and decks and balconies at other levels shall be permitted as shall walks intended for non vehicular use. However, in every case where those requirements of Section 5.22 waived by this Paragraph (a) are not met, all portions of the surface of the lot shall be Green Area as defined in Article 2.000 that are (1) not covered by the building or (2) devoted to the minimum area necessary to provide at grade, conforming parking spaces and the minimum necessary circulation and driveways for no more than one parking space per dwelling unit. The amount of Private open space required may be reduced upon issuance of a special permit by the Planning Board should the Board find that full compliance cannot reasonably be expected given the existing development of the lot and the provision of parking necessary to serve the dwelling units. However, where open space requirements are not met, the Applicant shall explore the use of portions of the interior of the building to provide recreational opportunities not possible on the exterior.

5.28.26 *Conforming Additions.*

Conforming additions to such non-residential structures shall be permitted without reference to the limitations set forth in Section 8.22 for such additions to non-conforming structures.

5.28.27 *Required Parking.*

Off-street parking shall be provided as required in the Schedule of Parking and Loading Requirements, Section 6.36.

5.28.28 *Criteria for Approval of a Special Permit.*

In granting any special permit, the Planning Board shall consider the standards and criteria set forth in Sections 10.43 and the Urban Design Objectives set forth in Section 19.30 of this Ordinance in addition to the following review standards.

5.28.28.1 *Criteria Applicable to All Projects.*

- (a) Privacy Considerations. Where significant variations from the normally required dimensional standards for the district are proposed, the Board shall evaluate the impact on residential neighbors of the new housing use and any other proposed use as it may affect privacy. The location and size of windows, screening elements, decks, entries, security and other lighting, and other aspects of the design, including the distribution of functions within the building, shall be reviewed in order to assure the maintenance of reasonable levels of privacy for abutters. In reviewing a proposed development plan, the Board shall consider, among other factors, the potential negative impacts of the new activity on abutters as a result of the location, orientation, and use of the structure(s) and its yards as proposed.
- (b) Reduction in Open Space. Where it is proposed to reduce the amount of on-site Open Space below that required in the applicable district, the Board shall evaluate the proposal in light of the following:
 - (1) The extent to which screening and buffering from neighbors will be accomplished
 - (2) The quality and viability of the proposed open spaces as they are designed
 - (3) The tradeoff in benefits and negative impacts of the loss of green space in order to provide the required amount of parking, including consideration of the feasibility of alternate parking arrangements that might produce additional green area, such as placing some or all parking within the structure
 - (4) The availability of common recreational spaces within the building to compensate for the loss of usable outdoor open space
- (c) Community Outreach. The Planning Board shall consider what reasonable efforts have been made to address concerns raised by abutters and neighbors to the project site. An applicant seeking a special permit under this Section 5.28.2 shall solicit input from affected neighbors before submitting a special permit application. The application shall include a report on all outreach conducted and meetings held, shall describe the issues raised by community members, and shall describe how the proposal responds to those issues.

5.28.28.2 *Additional Criteria Applicable to Larger Projects.*

Where the proposed project includes more than 10,000 Gross Square Feet or more than ten (10) dwelling units, and the proposed Stories Above Grade are increased above the maximum allowed under base zoning regulations, the Board shall evaluate the proposal in light of the following:

- (a) The implications of the size or number of additional dwelling units on the anticipated demand for parking. In order to assist the Planning Board in evaluating parking impacts, an applicant for a special permit shall be required to submit a Parking Analysis, as set forth in Section 6.35.3 of the Zoning Ordinance, as part of the special permit application.
- (b) The appropriateness of the proposed layout of floor space within the building for a multifamily residential use, with attention to the typical range of unit sizes and types that would be expected for housing in the neighborhood. Considerations may include the suitability of proposed unit

configurations for a variety of households, the extent to which unusual unit sizes or shapes may impact parking or overall quality of life for residents or neighbors, and the availability of customary amenities for residents such as storage, utilities, common rooms and recreational facilities.

- (c) The potential mitigating effects of the proposed occupancy of dwelling units. For instance, units designed for elderly residents or live/work spaces for professionals or artists may provide desirable housing options for Cambridge residents with fewer adverse impacts on parking or neighborhood character.

Delete Sections 5.30.1, 5.30.11, and 5.30.12.

Replace in their entirety Sections 5.30 and 5.40 to read as follows. Note that this amendment will consolidate tables and footnotes that are separated by district type in the current zoning into a single Table of District Dimensional Requirements and set of footnotes. Where markups are shown below, they only indicate substantive changes to development standards and do not necessarily include all formatting changes:

5.30 DISTRICT DIMENSIONAL REGULATIONS

5.30.1 Dimensional regulations shall apply as set forth in the table below for the indicated zoning districts. Refer to the applicable subsections of Section 5.20 for additional detail about how the below standards are applied.

5.40 FOOTNOTES TO THE TABLE OF DIMENSIONAL REQUIREMENTS

- (1) At least fifty percent (50%) of the required Open Space in a Residence C-1 district shall meet all of the requirements of Private Open Space in Section 5.22.1. At least fifty percent (50%) of the required Open Space shall meet the definition of Permeable Open Space and shall not be subject to the dimensional limitations of Section 5.22.1 as applied to Private Open Space.
- (2) The height of buildings or portions of buildings used as Residences may exceed the base height limit, up to a maximum of 6 stories above grade and 74 feet above grade, if all of the following criteria are met:

- (a) The building complies with the Inclusionary Housing Requirements in Section 11.203 of this Zoning Ordinance, regardless of whether it exceeds the size threshold requiring compliance; and
- (b) The area of the lot on which the building is located is not less than 5,000 square feet.
- (3) A dwelling need not be set back from the street line, or building line where such may have been established on the lot, more than the average of the setbacks of the buildings, other than accessory buildings, on the lots adjacent thereto on either side.
- (4) The required side or rear yard setback may be reduced in either of the ways described below:
 - (a) No side or rear yard setback shall be required for a building or portion thereof that directly abuts a building or portion thereof on an adjacent lot, as in the case of semi-detached dwellings or other adjoining buildings that share a party wall. However, portions of the building that do not directly abut portions of the building on an adjacent lot shall conform to the required side or rear yard setback.
 - (b) The required setback for one side yard of a lot may be reduced if the setbacks for two opposite side yards of the lot sum to at least 10 feet, and if no portion of a building is closer than 10 feet to the exterior wall of an existing building on an abutting lot.
 - (c) In the case of an alteration or addition to a building in existence since on or before January 1, 2025, the required side and rear yard setback distances shall be those of the existing building or structure. Additions or alterations that extend horizontally beyond the vertical walls of the existing building shall conform to the requirements in Table 5-1, as modified by paragraphs (a) and (b) above.
- (5) Measured from the centerline of the street, but in no case may a non-residential building be nearer the street than ten (10) feet.
- (6) Measured from the centerline of the street, but in no case may a non-residential building be nearer the street line than five (5) feet
- (7) In no case may a non-residential building be nearer the rear lot line than twenty (20) feet in Residence C-2, C-2B, C-2A, C-3, C-3A, C-3B districts. In Residence C-1 districts, no non-residential building may be nearer the rear lot line than twenty (20) feet plus one additional foot of rear yard for each four feet that the depth of the lot exceeds 100 feet, up to a maximum of thirty (30) feet. For purposes of this Footnote, the lot depth shall be that distance measured along a line perpendicular to the front lot line and extending to that point on the rear lot line most distant from the front lot line.
- (8) For buildings containing principal uses specified in Section 4.34:
 - (a) The FAR shall not exceed 1.25.
 - (b) The minimum front yards may be reduced to no less than five (5) feet measured from the street line.
 - (c) The minimum side yards may be reduced to no less than five (5) feet measured from the street line.
- (9) In no case may a non-residential building on any lot which abuts or is separated only by a public or private way from a Residence C-1, C-2, or C-2B district be nearer the street line or side line of the lot than the minimum front and side yard requirements for a non-residential building in the residential district which said lot abuts or from which it is separated by a way. However, such increased setback requirements shall only apply to any part of a building which is located within one hundred and twenty five (125) feet of a Residence C-1, C-2, or C-2B district.

- (10) The minimum ratio of open space to lot area required for a lot which abuts/or is separated only by a public or private way from a Residence C-1, C-2 or C-2B district shall be equal to the amount of open space required in the residential district which said lot abuts or from which it is separated by a way.
- (11) Yard Requirements for non-residential buildings in the Residence C-2B District
- (a) Setbacks—In the Residence C-2B District, non-residential buildings shall comply with these yard requirements by being set back above and below ground.
 - (b) Green Area—general. Two of the yards on a lot shall consist exclusively of green area as defined in section 2.000. Contrary to the provisions of said definition, hard surfaced walks and terraces shall not exceed twenty-five (25) percent of the area of each yard. At a minimum, green area setback shall consist of permanently maintained densely planted trees and shrubs that may be expected to form within three (3) years after the time of planting a continuous unbroken, year round visual screen. Every effort shall be made to retain the best existing trees in said setbacks to meet the requirements this section in whole or in part. Plans for landscaping and maintenance shall be approved by the Committee on Public Planting as appointed by the City Manager. No Certificate of Occupancy may be granted until landscaping under the terms of this section is completed.
 - (c) Lots with more than four yards. If the shape of a lot creates a situation where there are more than four yards, this green area requirement shall apply to half of the yards, rounded up in the instance of an odd number of yards.
 - (d) Lots in two or more zoning districts. Where a zoning district boundary line or lines split a lot, a lot partially in the Residence C-2B district shall comply with provisions elsewhere in this zoning ordinance with regard to lots in two or more zoning districts, except that the setback and green area requirements of this footnote shall apply to all parts of the lot regardless of zoning district.
 - (e) Lots abutting more restrictively zoned districts. When any lot abuts a more restrictively zoned district or districts, all yards abutting the more restrictively zoned district(s) shall be designated as yards required to comply with the green area requirements of this footnote. This provision shall apply to that quantity of abutting yards numbering up to and including the maximum number of green area yards required by this footnote. The total number of green area yards required on a lot shall not be changed by the provisions of this subsection (5).
 - (f) Pedestrian and vehicular access.
 - (i) When a yard used to satisfy the Green Area Open Space requirement of this footnote is a front yard, the Green Area Open Space may be interrupted by not more than one path for pedestrian access to the building. Said pedestrian path shall be constructed perpendicular to the lot line and shall not be more than eight (8) feet wide. The green area yard may also be interrupted by not more than one driveway constructed perpendicular to the lot line and which is not more than twelve (12) feet wide.
 - (ii) The sum of the width of the said pedestrian path and driveway may not exceed the setback provided by the smallest of the yards provided on the lot.
 - (iii) The areas allowed to be used for access under this subsection (6) shall be counted as part of the twenty-five (25) percent of the total required green area which is allowed to be use for hard surfaced walks and terraces for the front yard in which the access areas are constructed.

- (g) Townhouse Development When a lot is used for townhouse development, the provisions of this footnote shall apply to the lot before subdivision into townhouse lots. Subdivision into townhouse lots shall be done in such a manner as to not affect the application of this footnote to the entire unsubdivided lot. In particular, the pedestrian path and driveways allowed.
- (12) These requirements may be reduced to a minimum required setback of ten (10) feet with the grant of a special permit from the Planning Board provided that the yard is suitably landscaped to effectively buffer the building walls from abutting lots.
- (13) For purposes of calculating FAR and for no other purpose, notwithstanding the definition of Lot in Article 2.000, a Lot in the Residence C-3B district may contain non-contiguous parcels provided that all parcels are held in identical ownership, are all located within the Residence C-3B district or any abutting Business B district, and further provided that development on any contiguous portion of the lot does not exceed an FAR of 4.0.
- (14) In a Residence C-1 District, no non-residential building plane (excluding projections as permitted by Section 5.24.2) may be nearer than seven feet, six inches (7'6") to a side lot line.
- (15) In a Residence C-1, C-2, C-2A, C-2B, C-3, or C-3A district or Business A-2 district if a non-residential building is hereafter erected on a lot adjacent to a building having a blank wall directly on the side lot line, the new building may be so designed and erected that it will be flush with that portion of the blank wall of the former building which extends along the lot line; otherwise, however, not less than the required side yard shall be provided; in any case the required side yard shall be provided for the remainder of the full lot depth. In case a side wall contains windows or in case any part of a side blank wall of an existing building shall be set back from the side lot line, then a building hereafter erected on the lot adjacent to such an existing building shall be set back from the side lot line in accordance with the provisions thereof.
- (16) In no case may a non-residential building be nearer the rear lot line than twenty (20) feet.
- (17) The cornice line of the principal front wall plane of a non-residential building facing Massachusetts Avenue shall not exceed fifty-five (55) feet in height at the front lot line. Portions of non-residential buildings in excess of this height shall be set back behind a thirty-five (35) degree bulk control plane beginning at an elevation fifty-five (55) feet above the Massachusetts Avenue front lot line. The cornice line of the principal front wall plane of a non-residential building facing Green street shall not exceed thirty (30) feet in height at the front lot line. Portions of non-residential buildings in excess of thirty (30) feet shall be set back behind a forty-five (45) degree bulk control plane beginning at an elevation thirty (30) feet above the Green Street front lot line. No non-residential building or portion of a building within forty-five (45) feet of the Green Street front lot line shall exceed forty (40) feet in height.
- (18) Open space requirements for a lot shall be determined by the mix of uses on the lot. Where one hundred (100) percent of the principal uses on a lot are residential uses listed in Subsections 4.31 a, b, d, e, and g, an area equivalent to fifteen (15) percent of the lot area shall be reserved as private open space. Where one hundred (100) percent of the principal uses on the lot are other uses, an area equivalent to fifteen (15) percent of the lot area shall be reserved as publicly beneficial open space. Where development on a lot contains both the aforesaid residential uses and other uses, an area equivalent to fifteen (15) percent of the lot area shall be devoted to both types of open space in relative proportion to the gross floor areas occupied by residential uses and other uses. The amount of each type of open space shall be determined by the formulae below. The results of said formulae notwithstanding, a minimum of fifteen (15) percent of the area of that portion of a lot within forty-five (45) feet of a front lot line facing Green Street shall be devoted to landscaped green space as specified in Subsection 4.27.3. Where more than fifty (50) percent of the area of that portion of a lot is devoted to landscaped green space, as specified in Subsections 4.27.2 and 4.27.3, none of such

green space shall be counted in determining compliance with this Subsection 5.332d. Where fifty (50) percent or less of the area of that portion of a lot is devoted to landscaped green space, such area may be counted in determining compliance with this Subsection 5.33 2d.

- (a) Minimum required total area reserved for both types of open space = lot area multiplied by .15.
 - (b) Share of development devoted to residential uses = gross residential floor area divided by gross floor area of entire development.
 - (c) Minimum required private open space associated with residential use = total open space required multiplied by residential share.
 - (d) Share of development devoted to other uses = other gross floor area divided by gross floor area of entire development.
 - (e) Minimum required publicly beneficial open space = total open space requirement multiplied by other use share.
- (19) Where any lot abuts a residential district, non-residential buildings above and below ground shall be set back a minimum of twenty (20) feet from the zoning district boundary line, notwithstanding anything to the contrary provided in Article 6.000 of this Ordinance. Said setback shall consist exclusively of landscaped green area as defined in Article 2.000. Where the zoning district boundary line splits a lot the minimum twenty (20) foot setback shall be measured from the lot line(s) located in the residential district. At a minimum green area setback shall consist of permanently maintained, densely planted trees and shrubs that may be expected to form within three (3) years after time of planting a continuous, unbroken, year round visual screen. Every effort shall be made to retain the best existing trees in said setbacks to meet the requirements of this section in whole or in part. Plans for landscaping and maintenance shall be approved by the Committee on Public Planting as appointed by the City Manager. No Certificate of Occupancy may be granted until landscaping under the terms of this section is completed.
- (20) Subject to the provisions of Footnote 1 in Section 4.40 - Footnotes to the Table of Use Regulations.
- (21) Thirty-five (35) feet [or maximum non-residential height permitted in the abutting residential district, but in no case higher than fifty-five (55) feet] within fifty (50) feet of a residential district line. Where the zoning district boundary splits a lot the fifty (50) feet shall be measured from the lot lines located in the residential district. The height, however, may exceed thirty-five (35) feet provided the non-residential building is set back a minimum distance equal to two-thirds (2/3) the height.
- (22) However, for the side yard of any lot abutting another lot (where that lot does not abut Massachusetts Avenue and where all or a majority of it is located in a residence district) no non-residential building shall be set nearer than twenty feet to (1) either the residence/Business A-2 zoning district line where the lot line is located in the BA-2 District or (2) the side lot line itself where that lot line is located in the residence district. Nevertheless, the provisions of footnote (15) shall continue to apply.
- (23) Or two-thirds (2/3) of the height of the rear wall whichever is greater; however in the Business C district no rear yard shall be required where the rear lot line abuts a lot all of which lies in a business or industrial district.
- (24) Provided however that any portion of a non-residential building having a height greater than thirty-five (35) feet shall be set back of a bulk control plane rising at an angle of forty-five (45) degree from the plane of the principal front wall and rear wall planes beginning at a height of thirty-five (35) feet.

Where the parcel has frontage on two or more streets, this setback plane provision shall apply only to the front wall plane facing the principal abutting arterial street and to the opposite wall plane facing either a side or front property line.

In addition to the above provisions, that portion of a non-residential building located within fifty (50) feet of a residential zoning district line shall be limited to thirty-five (35) feet where the maximum non-residential height permitted in the residential district is thirty-five (35) feet or less.

- (25) Or the setback of the principal front wall plane of any adjacent building facing the same street, whichever is less.
- (26) For development in which all parking is provided entirely below grade, the following dimensional modifications shall be allowed:
 - (a) FAR may be increased to 2.0
 - (b) Front, Side and Rear yard requirements for non-residential buildings shall be modified to a minimum of ten (10) feet. Sites with two front yards that have a radiused front yard where two streets intersect may be considered as if the adjoining property lines are projected to intersect. Projecting bays and roof decks which are located on portions of a non-residential building below thirty-five (35) feet in height shall be eligible for the setback exception allow in Section 5.24.2 even if the structure itself if greater than 35 feet in height.
- (27) The following dimensional modifications shall apply in the Business A-5 district:
 - (a) For any portion of a building within fifty feet (50') of a residential district, the height of that portion of the building shall not exceed thirty-five feet (35').
 - (b) The Planning Board may grant a special permit to exclude Retail or Consumer Service Establishments, as listed in Section 4.35 of the Zoning Ordinance, from the calculation of Gross Floor Area (GFA) and Floor Area Ratio (FAR) on the lot if they are located on the Ground Story. The conditions of the special permit shall clearly describe what areas are excluded and what range of uses shall be permitted, along with other conditions to ensure that the objectives of the area are met.
 - (c) Notwithstanding any other section of this Zoning Ordinance, roof decks on any Story of a building shall be exempt from gross floor area calculations provided the roof deck is not within 20' of a residential district.
- (28) The required front yard for a dwelling constructed entirely above a commercial establishment shall be reduced to the existing or permitted front yard of the commercial establishment in any Business district except the Business A-3 district.
- (29) A side yard setback of $H+L/7$ and a rear yard setback of $H+L/5$ shall be required only for nonresidential uses abutting residences, residential or open space districts or public parks and recreation areas. These requirements may be reduced to a minimum required setback of ten (10) feet on special permit, provided that the yard is suitably landscaped to effectively buffer building walls from abutting lots.
- (30) One hundred and thirty (130) feet by special permit for buildings related to storage and processing of materials permitted in Section 4.37m.
- (31) Except that within the area bounded by Binney Street on the north, a line one hundred and fifty (150) feet easterly of Cardinal Medeiros Avenue on the west, Broadway on the south, and the railroad right of way on the east, the FAR may be increased to 3.2 for non-residential uses for an addition to a building in existence as of June 1, 2001 provided that for each four hundred and fifty (450) square feet of GFA added above an FAR of 2.75 one existing parking space is permanently eliminated.
- (32) In the Industry B District, a hotel use (Section 4.31.1.b) shall have a Maximum FAR of 4.0.

- (33) In an Office, Business or Industrial district no non-residential building shall be erected nearer to the street line than is permitted in the adjacent Residence district within a distance of fifty (50) feet from the Residence district boundary line, except where such building is separated by a street from the Residence district.
- (34) In Office, Business or Industrial districts no non-residential building shall be erected within ten (10) feet of the side lot line of any abutting lot, all or the major portion of which is in a Residence district.
- (35) In a Business C district, within fifty (50) feet of a residential zone, no non-residential building shall be erected that is greater than thirty-five (35) feet in height.
- (36) The maximum building height and FAR for Dormitory (but excluding resident fraternity or sorority) Uses, Section 4.33 b(7), shall be modified for certain districts as set forth in the table below. Where a lot contains a combination of dormitory and other non-residential uses, then the total FAR on the lot shall not exceed the maximum set forth in the table below, and the FAR for all non-residential uses other than Dormitory (determined by dividing the GFA occupied by all non-residential uses other than Dormitory by the total lot area) shall not exceed the maximum non-residential FAR otherwise applicable in the district.
