The Bluebikes system launched successfully in Cambridge in July 2012 and currently has more than 6,000 Cambridge residents, employees, and students as members; there are a total of 30,000 members throughout all participating municipalities. Throughout the system, over 27 million trips have been taken since the system launched.

These funds will contribute to the purchase, installation and maintenance of station equipment. This includes replacing some of the oldest stations that have been in place for almost 12 years, and bicycles that are no longer functioning well.

Very truly yours,
