

To the Honorable City Council:

The undersigned registered Cambridge voters respectfully request that the City Council ordain the ordinance language set forth below relative to the creation and operation of Neighborhood Conservation Districts in the city.

**Diversity, Equity, Inclusion, and Access**  
**21st Century Values for Neighborhood Conservation Districts**

We invite you to join us in asking the City to improve the way that we create and operate Neighborhood Conservation Districts in Cambridge. Intended to serve the worthy goals of helping communities to preserve historic structures and maintain neighborhoods as they are, Neighborhood Conservation Districts have too often been exploited unfairly as a means by which tiny, unrepresentative groups of residents can exploit our city ordinances to control their neighbors' choices and housing options. Recently in Cambridge, we have seen small groups of homeowners initiate the process of establishing new Neighborhood Conservation Districts in order to raise their property values, settle interpersonal disputes, and restrict development potential below even that allowed by zoning. None of those purposes matches Cambridge's values, and yet that behavior is currently enabled by our City ordinances.

The current ordinance language was drafted 40 years ago and needs to be updated to reflect modern community values related to diversity, access, equity, representation, and inclusion. The ordinance governing the creation and operation of Neighborhood Conservation Districts currently allows just ten unrepresentative residents to launch a lengthy study of a Conservation District in an area that might be home to thousands of residents and burden their homes with binding rules. A study can be initiated by the appointed members Cambridge Historical Commission without any input or say so from our democratically elected City Council. A study places binding rules on a neighborhood from the Historical Commission that no one in the neighborhood outside of the Historical Commission's Study Commission has approved of or consented to, and, according to an opinion issued by City Solicitor Nancy Glowa, those rules can remain in place for as many years as the Historical Commission wants to study them. The membership appointed to the Neighborhood Conservation District Commissions in no way reflects the diversity of their neighborhoods with age, race, ethnicity, renter status, or a host of other factors, tending to confer additional power and privilege to the already powerful and privileged.

This petition proposes changes to the ordinance governing the creation and operation of Neighborhood Conservation Districts with a view to increasing the democratic legitimacy of our Conservation Districts by empowering the members of the neighborhoods they govern and by introducing essential democratic checks and balances to the process. The main goals of this petition are:

- Increasing the democratic threshold required to begin a Conservation District Study
- Ensuring that the goals of Neighborhood Conservation District are balanced with other City goals of diversity, equity, and inclusion in all City neighborhoods and the need to address the housing supply and cost crisis
- Ensuring that the democratically elected City Council has a voice in starting a new study
- Ensuring that the Neighborhood Conservation District Commissions and the rules governing Neighborhood Conservation Districts are reflective of the diversity of our neighborhoods

- Ensuring that no binding rules are imposed on neighborhoods without the consent of the governed

We find no fault with the intent behind the original ordinance language, and we believe that it likely represented the best thinking of the times to solve a social problem of importance to the community. However, the world has learned a lot in the past forty years. Everyone in this city has learned a lot. And we believe that the ordinance changes proposed below will help to better accomplish the ordinance's original goals by modernizing our Neighborhood Conservation Districts in accordance with our modern values and increased understanding of the moral requirement for diversity, access, affordability, equity, representation, and inclusion throughout community life.

We respectfully request ordination of the below changes to the language of Chapter 2.78 Article III. Underlined sections represent the petitioners' proposed new wording and ~~struck through sections~~ represent proposed deletions.

The primary point of contact for this petition is Loren Crowe of 8 Museum Way, Apartment #508 Cambridge, MA 02141. He can be reached at 760-522-2101 or [lorencrowe@gmail.com](mailto:lorencrowe@gmail.com).

The Commission shall within forty-five days following the filing of such request or petition hold a preliminary hearing and arrange for

the preparation of a report and, if required, request the appointment of a study committee. In the event the Commission requests the appointment of a study committee, the approval of the formation of such committee shall be by order of the City Council. If the Commission declines to request the appointment of a study committee, it must make its recommendation as to whether or not to designate the landmark or neighborhood conservation district within forty-five days of the original petition or request for that designation. The Historical Commission shall not reconsider a proposed designation, amendment or rescission of designation within ~~one year~~ten years of its previous hearing thereon, ~~unless two-thirds of all its members vote to do so.~~ No later than forty-five days after the transmittal of a report to the Commission pertaining to a proposed designation, the Commission shall hold a public hearing. The Commission shall give not less than ~~fourteen~~thirty days notice of such public hearing by publication in a newspaper of general circulation in the City and by mailing notice thereof to the owner of the proposed landmark and to every owner abutting the proposed landmark or within the proposed neighborhood conservation district, each such owner to be determined from the then current records of the Assessing Department, to the residents of every address within the proposed neighborhood conservation district, and to the City Manager, the Planning Board and the City Clerk.

Along with its recommendation, the Historical Commission shall include a report on the impact of the designation on housing and renovation costs in the district and a letter from each business association within, or within 500 yards of, the proposed district setting out their views on the proposed district, and the Historical Commission shall identify opponents to the proposed district and allow them to submit a letter setting out their views on the proposed district and a counter-proposal to the CHC's recommendation. Designation of a landmark or a neighborhood conservation district or amendment or rescission of designation shall be by order of the City Council. In the case of a designation, the order shall include a statement of the reasons for such designation and a statement of standards which the Historical Commission or neighborhood conservation district commission is to apply under Sections 2.78.170 and 2.78.190 through 2.78.220 of this article.

G. No designation, amendment or rescission of designation shall become effective until a map setting forth the boundaries of the landmark or neighborhood conservation district or change in the boundaries thereof, has been filed with the City Council and has been recorded with the Registry of Deeds for the South District of Middlesex County.

H. If the order establishing or amending a neighborhood conservation district contains provisions for both regulatory and educational/incentive programs, the regulatory provisions of the order shall not be effective unless and until the educational/incentive provisions of the order are funded.

I. Following acceptance of a designation petition for a landmark by the Historical Commission, no application for a building permit for new construction or alterations on the premises of a property being considered for designation shall be granted until reviewed by the Commission as though the property were designated as a landmark ~~or a neighborhood conservation district~~ under this Article III. Beginning with the Following acceptance of a designation petition for a neighborhood conservation district by the Historical Commission and authorization of a study of the appropriateness of that designation by order of the City Council, and until (a) the Historical Commission makes a negative recommendation on a

proposed designation, (b) the City Council determines not to enact the proposed designation, or (c) one year has elapsed, whichever is less, the Commission shall [conduct a non-binding review of](#) all proposed construction, demolition, or alteration that affects the exterior architectural features, other than color, [climate resiliency features, or renewable energy features](#), of the structures on the premises of a proposed landmark or within a proposed neighborhood conservation district. [The period during which these rules and procedures apply may not be extended other than due to a declared emergency.](#)

J. Notwithstanding the prior provisions of this section 2.78.180, a neighborhood conservation district previously established by order of the City Council, in accordance with this section, which order instructs that there be a review of the activities of the neighborhood conservation district commission established pursuant to that order, following one or more public hearings by such neighborhood conservation district commission and by the Historical Commission, and a report to the City Council by such commissions containing a summary of testimony at such hearings and recommendations by such commissions for amendments to the powers, responsibilities and procedures of such neighborhood conservation district commission (including amendments to the boundaries of the affected neighborhood conservation district), may be amended by the City Council, in a manner consistent with the recommendations of such report, or be rescinded without the necessity of the appointment of a new study committee or of a de novo study process.

[K. Beginning in 2022, and every ten years thereafter, the City Council shall review each existing neighborhood conservation district and adopt an order \(1\) to renew the neighborhood conservation district unchanged; \(2\) to renew the neighborhood conservation district with more limited boundaries; \(3\) to renew the neighborhood conservation district with less restrictive rules and/or guidance; or \(4\) to discontinue the neighborhood conservation district. In the review process, the City Council shall revise the rules and/or guidance to conform with the current version of this ordinance, including setting a schedule for conformance of neighborhood conservation district commissions, upon vacancies, to the current membership requirements. In the absence of a City Council order renewing a neighborhood conservation district, the neighborhood conservation district shall be discontinued.](#)

## 2.78.190 Review procedures.

A. Except as the order designating or amending a landmark or neighborhood conservation district may otherwise provide in accordance with this article, the Historical Commission or neighborhood conservation district commission having jurisdiction shall review all construction, demolition or alteration that affects the exterior architectural features, other than color, [climate resiliency features, or renewable energy features](#), of any landmark or within any neighborhood conservation district.

B. The order designating or amending a landmark or neighborhood conservation district may provide that the authority of the Historical Commission or neighborhood conservation district commission having jurisdiction shall not extend to the review of one or more of the following categories of structures or exterior architectural features of the landmark or within the neighborhood conservation district in which event the structures or exterior architectural features so excluded may be constructed or altered without review by the Commission:

1. The application of exterior wall material in a manner that does not require the removal or enclosure of any cornice, fascia, soffit, bay, porch, hood, window or door casing, or any other protruding decorative element;
2. ~~Alternations~~ Alterations to the exterior of existing structures that do not increase or diminish the size and location of windows and doors, cause the removal of any bay, porch, hood, window or door casing or any other protruding decorative element, or alter the appearance of a roof;
3. The exterior appearance of a new structure that does not require a variance or special permit under the zoning ordinance then in effect;
4. Signs, temporary structures, lawn statuary, or recreational equipment, subject to such conditions as to duration of use, dimension, location, lighting, removal and similar matters as the Commission may reasonably specify;
5. Terraces, walks, driveways, sidewalks and similar structures substantially at grade level;
6. Walls and fences;
7. Storm doors and windows, screens, window air conditioners, lighting fixtures, antennae, trelliswork and similar appurtenances.

C. The Historical Commission or a neighborhood conservation district commission may determine from time to time after a public hearing that certain categories of exterior architectural features or structures, including, without limitation, any of those enumerated in this section, if the provisions of the applicable order do not limit the authority of such commission with respect thereto, may be constructed or altered without review by such commission without causing substantial derogation from the intent and purposes of this article.

D. If the order establishing or amending a neighborhood conservation district provides, the determination of a neighborhood conservation district commission shall be binding only with regard to applications to construct a new building, to demolish an existing structure if a demolition permit is required, to construct a parking lot as a principal use, and to construct an addition to an existing structure that would increase its gross floor area, and in all other cases the determinations of a commission shall be advisory only and not binding on an applicant. In no case shall a building permit be issued until the commission has made a determination under the applicable provisions of this article.

(Ord. 1002 (part), 1983: prior code § 2-147(k)(5))

## 2.78.200 Maintenance, repair and reconstruction.

Nothing in this chapter shall be construed to prevent the ordinary maintenance, repair or replacement of any exterior architectural feature of a landmark or within a neighborhood conservation district which does not involve a change in design or material or the outward appearance thereof, nor to prevent landscaping with plants, trees or shrubs, nor construed to prevent the meeting of requirements certified by duly authorized public officer to be necessary for public safety because of an unsafe or dangerous condition, not construed to prevent any construction or alteration under a permit duly issued prior to

the effective date of the order which designates that landmark or district, nor construed to prevent the reconstruction, substantially similar in exterior design, of a structure or exterior architectural feature damaged or destroyed by fire, storm or other disaster, provided such reconstruction is begun within one year thereafter and carried forward with due diligence.

(Ord. 1002 (part), 1983: prior code § 2-147(k)(6))

B. Any person who desires to obtain a certificate from the Historical Commission or neighborhood conservation district commission shall file with the Commission an application for a certificate of appropriateness, a certificate of nonapplicability or a certificate of hardship, as the case may be, in such form as the commission may reasonably determine, together with such plans, elevations, specifications, material and other information, including in the case of demolition or removal a statement of the proposed condition and appearance of the property thereafter, as may be reasonably deemed necessary by the Commission to enable it to make a determination on the application.

C. No building permit for alteration of an exterior architectural feature of a landmark or construction of a structure or for alteration of an exterior architectural feature within a neighborhood conservation district and no demolition permit for demolition or removal of a landmark or of a structure within a neighborhood conservation district shall be issued by the City or any department thereof until the certificate required by this article has been issued by the Historical Commission or neighborhood conservation district commission having jurisdiction. [This provision does not apply to proposals for, or existing, affordable housing projects that either are developed under the Affordable Housing Overlay, as defined in Section 11.207 of the Zoning Ordinance, or have a majority of their units permanently reserved for households at or below 100% of Area Median Income, over which neither the Historical Commission nor any neighborhood conservation district commission has jurisdiction.](#)

#### 2.78.220 Factors considered by Commissions.

A. In passing upon matters before it, the Historical Commission or neighborhood conservation district commission shall consider, among other things, the historic and architectural value and significance of the site or structure, the general design, arrangement, texture and material of the features involved, and the relation of such features to similar features of structures in the surrounding area. In the case of new construction or additions to existing structures a commission shall consider the appropriateness of the size and shape of the structure both in relation to the land area upon which the

structure is situated and to structures in the vicinity, ~~and a Commission may in appropriate cases impose dimensional and setback requirements in addition to those required by applicable provision of the zoning ordinance.~~ A Commission shall not consider interior arrangements or architectural features not subject to public view.
