Dear City Council request that you send
a letter to President Donald Trump That
at this delicate time of elections on serious
matters that he not start a war with Iran.
We all ready have enough serious matters
to deal with.

Thank You
PZV

we are at the moment of the birth of
the Immortality of

The United States of America.

If what I just stated wasn't true,
I couldn't have thought of it.

The reason I was able to think of it
is because I know how it can happen.

why would I want to deny you the
adventure of figuring your way
it could happen. Amen

Peter Valentine

I support the death penalty for killing a police officer.

If you like law and order and a peaceful society, there is no problem in giving the police this security measure.

If you don't like peace and law and order you are a savage and don't belong in a respectful civilized society.

Peter Valentine

Just because we don't live in a perfect world, does that mean there should be no law and order?

Communications: May 21, 2019 37 Brookline St.

Dear Council thank you for your Great work in a world filled with much injustice against humanity.

How many people exist, who the great powers of the world consider insignificant.

To begin with I believe the building of city Hall itself belongs to all the people and should not be used for just one group's concerns. There are plenty of ways the government can look into individual group or individual concerns.

And therefore the front presence of the city Hall building should not be used for such.

But since one group has used this public building to promote its interests, a statement above it should be declared to bring things into equilibrium, which statement is

"All Lives Are Special" so that the great powers of society may not trespass upon humanity's basic rights.
