TEXT OF ORDERS

O-1 Nov 2, 2015

COUNCILLOR TOOMEY

WHEREAS: Precision medicine is an emerging model within the healthcare field that seeks to reduce costs and improve patient outcomes by tailoring therapies to the unique characteristics of each patient; and

WHEREAS: Comprehensive genomic profiling (CGP) is a new diagnostic test available to cancer patients that precisely identifies the underlying changes in a patient’s DNA or RNA that are causing cancer cell growth; and

WHEREAS: CGP is generally used for desperately ill patients with advanced cancer diseases, making the need even more urgent for Medicare coverage of a diagnostic tool that can identify all available treatment options quickly and accurately; and

WHEREAS: CGP enables physicians to consider the use of targeted therapies that are often more effective at treating cancer and leave patients with fewer side effects, and result in lower costs and better outcomes; and

WHEREAS: CGP will help the field of oncology transition to a precision medicine approach; and

WHEREAS: Foundation Medicine, Inc. (FMI) is a biotechnology company based in the City of Cambridge, employees approximately 400 people, performs CGP tests in its Cambridge lab, and provides the only CGP test currently commercially available; and

WHEREAS: The regional Medicare Administrative Contractor (MAC), National Government Services (NGS), must approve CGP tests before they can be covered by Medicare, and although other regional MACs have approved CGP tests, Medicare patients nationwide cannot receive coverage until the regional MAC for FMI’s Cambridge laboratory, NGS, approves Medicare coverage guidelines for cancer patients that include coverage for CGP; and

WHEREAS: Greater than 80% of all Medicare recipients across the country with non-small cell lung cancer present with Stage IIIb/IV disease at initial diagnosis, and it accounts for more than 70% of all deaths among lung cancer patients over the age of 65 possibly including our families, friends, and neighbors, who would access and benefit from CGP soon after it is covered; now therefore be it

ORDERED: That the City Council go on record in support of expanding access to CGP tests to Medicare patients in Cambridge and nationwide; and be it further

ORDERED: That the City Council go on record requesting that NGS expedite its Local Coverage Determination review and establish Medicare coverage for CGPs.

COUNCILLOR SIMMONS

WHEREAS: Residents have recently alerted the City Council to a number of motorists ignoring traffic signs and traffic signals at the intersection of Sherman Street and Rindge Avenue, the stretch of road from Wendell Street to Shepard Street (particularly around Massachusetts Avenue), and the intersection of Raymond Street and Walden Street, and this disregard of traffic rules places vehicles and pedestrians at great safety risk; now therefore be it ORDERED: That the City Manager be and hereby is requested to confer with the Cambridge Police Department and other appropriate City personnel to address the above concerns, to determine what measures should be taken to increase enforcement of the traffic signs and signals in these areas, and whether additional safety measures must be implemented, and to report back to the City Council and the public in a timely manner.

O-3 Nov 2, 2015

COUNCILLOR SIMMONS

WHEREAS: Residents have alerted the City Council to a number of recent collisions and near-collisions between cars and bicycles or cars and pedestrians in the center of Harvard Square, mainly occurring in the area between the Out of Town News structure and the Harvard Coop building, with traffic heading toward Porter Square; and

WHEREAS: This large intersection has a number of faded bicycle lines on the pavement and a faded line indicating where vehicles should stop during a red light, and some residents have voiced concern that the lack of bright, distinctive street markings have led to confusion as to right-of-way and where vehicles should be stopping during red lights; now therefore be it

ORDERED: That the City Manager be and hereby is requested to confer with the appropriate City personnel to address the above concerns, to determine what measures should be taken to increase pedestrian, bicycle, and vehicular safety in this section of Harvard Square, and to report back to the City Council and the public in a timely manner.

O-4 Nov 2, 2015

COUNCILLOR CHEUNG

WHEREAS: The City of Cambridge is concerned with both improving the quality of its residents’ lives and environmental sustainability; and

WHEREAS: The City Council recently adopted a “Net Zero” action plan, part of which included the City’s goal to reduce wasteful energy use in the pursuit of lower carbon emissions; and

WHEREAS: Installing solar panels provides an alternative source of energy that does not contribute to increasing levels of carbon in the atmosphere and falls in line with the City’s “Net Zero” goals; and

WHEREAS: The City owns a number of buildings which could potentially host solar panels that would help generate energy from a carbon neutral source; now therefore be it

ORDERED: That the City Manager be and hereby is requested to investigate the feasibility of installing solar panels on suitable City owned rooftops and report back to the City Council in a timely manner.

O-5 Nov 2, 2015

COUNCILLOR SIMMONS

WHEREAS: Members of the City Council, via constituent casework, and via direct interactions, often become aware of certain landlords that engage in harassing and abusive behavior toward their tenants, or who routinely violate the basic obligations of the tenant-landlord relationship; and

WHEREAS: Despite the fact that City Councilors may gradually accumulate knowledge of these specific bad actors, there does not exist any viable mechanism for distributing this information in a way that can alert potential renters to steer clear of these problematic landlords, or to sign a lease at their own risk; and

WHEREAS: Municipal governments in Chicago and in New York have established online databases and watch-lists of landlords to be wary of, and these governments are providing a public service to potential renters, giving them important information that can help them make informed decisions prior to signing a lease and potentially sparing them from years of difficulty and distress; and

WHEREAS: The vast majority of landlords in Cambridge are decent, upstanding individuals who either work for professional housing management companies, or are renting out their privately owned apartments to those that wish to live there, these fine individuals should be able to distance themselves from the handful of bad actors, and establishing such a public database would be one new method of creating such a distinction; and

WHEREAS: Creating such a public database in Cambridge would be in the best interests of the thousands of residents who rent their homes, it would ease the caseloads of the local legal organizations that are overburdened with potentially avoidable tenant-landlord disputes, and it would be in the best interests of the Cambridge community overall; now therefore be it

ORDERED: That the City Manager be and hereby is requested to consult with the Community Development Department and other appropriate City departments to determine the feasibility of establishing an online database of "problematic landlords" modeled upon the databases of Chicago and New York, to determine what the criteria for establishing this designation would be, and to report back to the City Council on when such a database could be up and running in a timely manner.

O-6 Nov 2, 2015
