

Communications; To the City Council of Cambridge and The People of The
the UNITED STATES OF AMERICA from Peter Val Entine 37 Brookline St.,
Cambridge, MA 02139. February 8, 2011.

THE Purpose of The United States of America is
To protect Humanity against tyrants, dictators, criminals, incompetent
legislators, betrayors, national and planetary enemies, despotic kings,
queens, royalists, aristocrats and those wealthy whose acts destroy the
rights and economies the Nation.

When such abuses occur and no agency in the government stands up to
correct the matter, The People, without whom the nation could not exist,
on mass, in small groups or individually have the authority to declare
and assert the corrective law-path to bring the government back to
Health.

To That Order; two federal judges have declared that the new Health Care
Bill to be constitutional and two other federal judges have declared it
to be unconstitutional.

Thus the Health Care Bill may not be implemented until The Supreme Court
has resolved the matter

Since the matter is critical in terms of how it affects the nations'
economy. An economy that has been allowed to be dangerously distabilised
by the federal governments' ineptitude.

And since a federal government official has stated when asked, what the
government intended to do regarding the Health Care Bill judicial
impasse, stated that, the federal government would precede ahead with
implementing the law anyway.

And therefore The National Officer In Charge, under a Constitutional
State of Imminent Danger that will not admit delay, hereby states that
since the matter is undecided as to its legality, any USA citizen if
forced to or threatened to obey the Health Care Bill, may go to a USA
police officer, all of whom are swear oath to support and therefore
enforce the nations' foundational constitutions, and inform the officer
of the offense, whereafter upon investigation if the officer finds that
there has indeed been a an action to arrest or threat to arrest
regarding not obeying the undecided Health Care Bill, and that officer
finding that the threat is true, that officer shall proceed to arrest
the offending government official, until the Health Care Bills' legality
is finally resolved.

The City Council of Cambridge MA is hereby ordered to send this
communication to all the States and the Mayors of all the states Capital
Cities.

So Be It Ordered.
with Kindness and Consideration
National Officer In Charge
UnElected
Peter Zak Valentine
